

PhD Course Structure: 2023 - 2024*

| Period 1 | Period 2 | Period 3 (Yr1 students in Singapore) | Period 4 (Yr1 students in Fontainebleau) | Period 5 |
|------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Core (Yr 1) | Core (Yr 1) | | Advanced (Yrs 1 and 2) | |
| Microeconomic Theory A (16) Research Methods (16) Probability and Statistics I A (16) Social Theory (16) | Microeconomic Theory B (16) Applied Microeconomics (16) Probability and Statistics I B (16) Introduction to Social Psychology (16) | Discrete Stochastic Processes (16) Foundations of Operations A (12) Linear Optimization (16) Dynamic Programming Applications (16) Choice Theory and Behavior (16) Corporate Finance Theory (12) Continuous Time A (12) Empirical Asset Pricing A (12) <i>Organizational Economics (8)</i> <i>Consumer Behavior A (16)</i> Entrepreneurship Research A (16) <i>Strategic Management Process B (12)</i> Introduction to Organization Theory (16) <i>Organizational Sociology (16)</i> <i>Social Psychological Foundations of Management Disciplines (16)</i> | <i>Modeling Workshop (16)</i> Research Topics in TOM (16) Foundations of Operations B (12) <i>Bayesian Methodology and Computation (16)</i> Foundations of Machine Learning and AI (16) Multivariate Methods (16) <i>Analytical Modeling in Marketing (16)</i> <i>Empirical Asset Pricing B (12)</i> Empirical Corporate Finance A (12) Behavioral Finance A (8) Emerging Issues in Accounting Capital Markets Research (16) Econometrics A (16) Game Theory A (16) Contract Theory (8) Macroeconomics and Finance (8) <i>Organizational Foundations of Financial Markets (16)</i> <i>Readings and Research on Multinational Enterprises A (16)</i> <i>Competitive Strategy Research B (12)</i> Organizational Behavior (16) Industrial Organization A (16) | <i>Supply Chain Management (16)</i> <i>Empirical Methods in OM (16)</i> <i>Experimental Economics (8)</i> <i>Selected Topics in Decision Sciences B (16)</i> Machine Learning, Causality and Management (16) <i>Marketing Strategy Models (16)</i> <i>Behavioral Finance B (8)</i> <i>Empirical Corporate Finance B (12)</i> <i>Research Topics in Asset Pricing (8)</i> <i>Research Topics in Financial Markets (8)</i> Analytical Methods in Accounting Research (8) Game Theory B (8) <i>Computational Organization Science (16)</i> <i>Time Series (16)</i> <i>Readings and Research on Multinational Enterprises B (8)</i> <i>Corporate Strategy A (12)</i> Special Topics in Strategy (16) <i>Applied Event History Analysis (8)</i> Econometrics B (16) |
| Advanced (Yrs 1 and 2) | Advanced (Yrs 1 and 2) | | | |
| Management Accounting (16) Foundations of Financial Economics A (16) <i>Entrepreneurship Research C (16)</i> Experimental Design (16) | Industrial Organization B (16) Foundations of Financial Economics B (16) Information Economics A (12) Advanced Topics in Accounting and Corporate Governance (16) Fundamentals of Optimization (16) Bayesian Analysis (16) Foundations of Strategy and Organization (16) Advanced Topics in OB/OT (16) | | | |

* Subject to change
 ** Courses in *Italic type font* are alternated; next offer in 2025-2026
