

## QUICK TIPS for SECOND LIFE Make the most of your Second Life Experience!

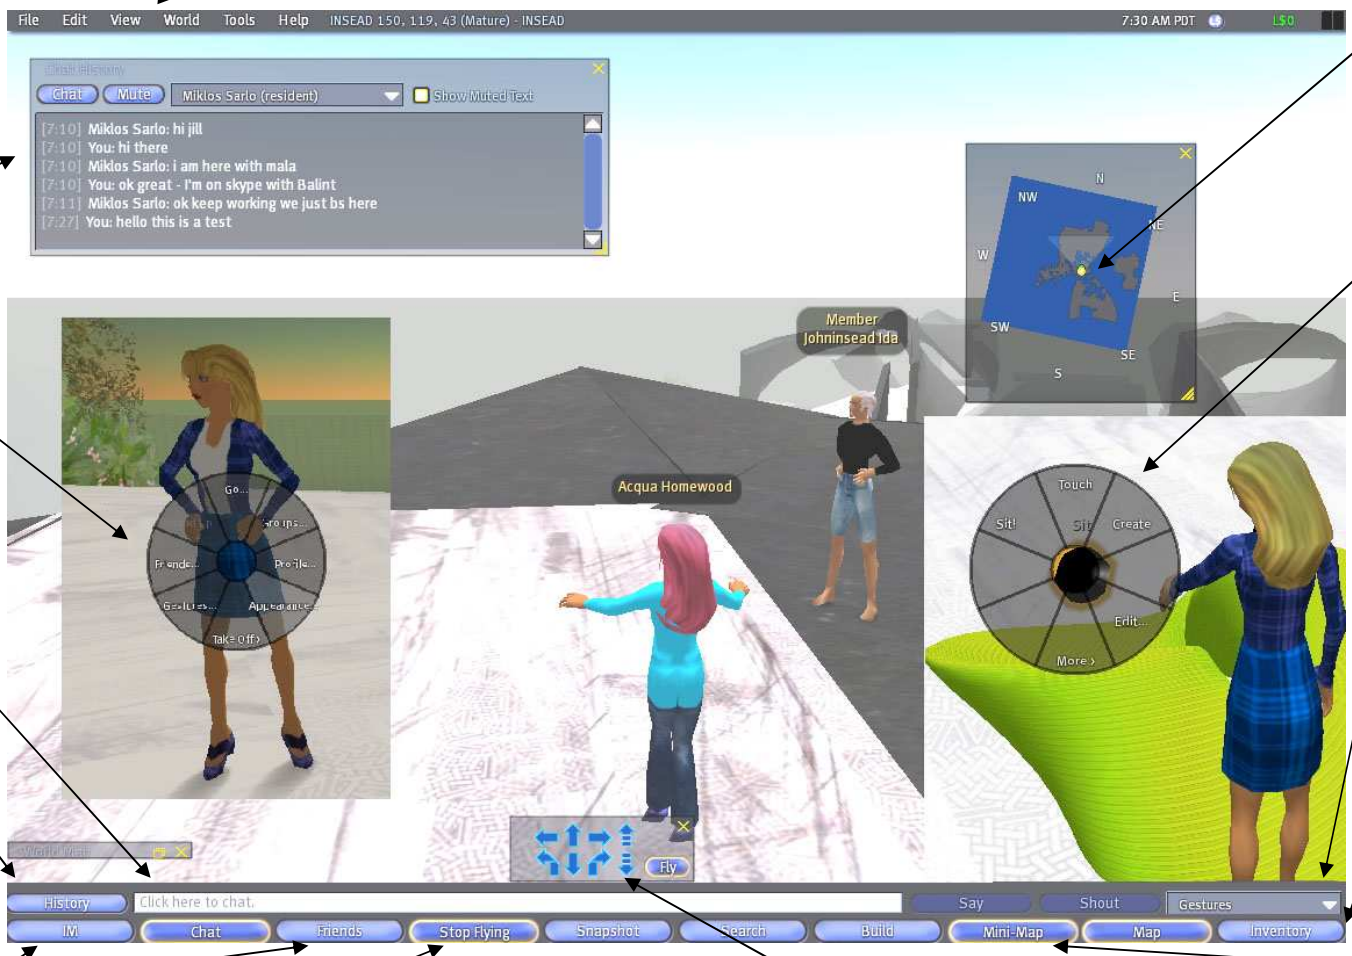

To change the light, click on **World > Environmental Settings > Midday**

**Chat History** is enabled

Right clicking on your avatar opens up options such as **editing your appearance**

Type your **text chat** in here and click on **<Return>** to validate. To see the chat history, click on **History**

To send **Instant Messaging (IM)** you first have to add your contact's name to your list of **Friends** (and they need to agree)

The **mini-map** acts like a radar to show where other people are located on the campus

Click on an object to **sit** on it or **drink** it, or right click to see options

To view the gestures, you can also click on **Edit > Gestures** in the top menu bar

You can store outfits and gesture sequences in the **Inventory**

If you get lost on the campus, you can click on the **Mini-map** to find other people

You can click on **Stop Flying** to land, but be careful how high up you are! It is best to use the **<Page Down>** arrow first to manage a gentle landing!

Use the **Arrow keys** on your keyboard or click here to move forward. To fly use the **Page up/ Page down** keys or the movement controls on the screen. If the movement controls are not visible on your screen, you can click on **View > Movement Controls** to activate
